### Feeding Directions

Hi-Pro Ruminant free choice mineral is formulated to be fed continuously on a free choice basis to pasture cattle (slaughter, stocker, feeder cattle and dairy and beef replacement heifers) to provide 60-200 mg lasalocid per head daily. Pasture and roughage should be adequate to assure minimum consumption of mineral will be 1.34 oz/hd/day (which provides 60 mg lasalocid) and a maximum consumption of mineral will be 4.44 oz/hd/day (which provides 200 mg lasalocid). If cattle consume more or less than these levels feeders should be moved further or closer to the general resting or watering area.

**WARNING:** A withdrawal period has not been established for this product in pre-ruminating calves. Do not use in calves to be processed for veal.

**CAUTION:** Feeding undiluted or mixing errors may result in an excess Lasalocid concentration which could be fatal to cattle and sheep. Do not allow horses or other equines access to Type A or Type B feeds containing Lasalocid as ingestion may be fatal. Safety of Lasalocid for use in unapproved species has not been established.

**LIMITATIONS:** Feed continuously on a free-choice basis at a rate of not less than 60 mg or more than 300 mg of lasalocid per head per day.

**CAUTION:** THIS FEED CONTAINS ADDED COPPER. DO NOT FEED TO SHEEP OR OTHER RELATED SPECIES.
