INGREDIENTS

Roller corn, cottonseed hulls (27%), cottonseed meal, processed grain by-products, molasses products, fat products, high fructose corn syrup, whole cottonseed, calcium carbonate, vegetable oil, salt, yeast culture, Vitamin A supplement, sodium selenite, Vitamin E supplement, direct-fed microorganisms, magnesium oxide, zinc sulfate, ferrous carbonate, copper chloride, manganese sulfate, cobalt sulfate, chromium propionate, ethylenediamine dihydriodide, mineral oil, propylene glycol, polysorbate 60, glycerin, xanthan gum, natural and artificial flavors, ethoxyquin, acetic acid, propionic acid (preservatives).

FEEDING DIRECTIONS

Feed to show cattle to get them on feed quickly. Weigh feed prior to each feeding and record weights so consumption can be tracked and adjustments of feeding rate can be implemented. Introduce to mature cattle slowly to prevent digestive upsets. Start feeding at 2% of body weight along with free choice high quality hay. Adjust feeding level upward until cattle are on full feed. This feed can also be used for creeping, weaning, growing out locker calves and conditioning bulls prior to breeding. Provide fresh, clean water at all times. Keep feed fresh in cool, dry storage. DO NOT use feed that is old, molded or insect contaminated.

CAUTION: This feed contains added copper. Do not feed to sheep or other related species.

CAUTION: This feed contains added chromium. Do not exceed 0.5 milligrams of chromium from chromium propionate per kilogram of the complete feed.
