INGREDIENTS

Cottonseed hulls (30%), rolled corn, barley, cottonseed meal, oats, molasses products, fat products, high fructose corn syrup, calcium carbonate, salt, yeast culture, Vitamin A supplement, sodium selenite, Vitamin E supplement, direct-fed microorganisms, magnesium oxide, zinc sulfate, ferrous carbonate, copper sulfate, manganous sulfate, chromium propionate, ethylenediamine dihydriodide, cobalt sulfate, mineral oil, propylene glycol, polysorbate 60, glycerin, xanthan gum, natural and artificial flavors, ethoxyquin, acetic acid, propionic acid (preservatives).

FEEDING DIRECTIONS

A very palatable ration in textured form to be used for developing steers and heifers where rapid gains are not needed. Animals should consume 2.5 to 3.0% of body weight after being worked up to full feed. When animals are being limit fed or consuming more than 3% of body weight, a high quality hay should be fed to curb appetite. Feed free choice to heifers being grown for breeding. Introduce to mature cattle slowly to prevent digestive upsets. Provide fresh, clean water at all times. Keep feed fresh in cool, dry storage. DO NOT use feed that is old, molded or insect contaminated.

CAUTION: This feed contains added copper. Do not feed to sheep or other related species.

CAUTION: This feed contains added chromium. Do not exceed 0.5 milligrams of chromium from chromium propionate per kilogram of the complete feed.
