FEEDING DIRECTIONS

Feed Hi-Mag Wheat mineral free choice to cows grazing on wheat or other small grain pastures or when native and improved pasture is lush. Feed to pregnant cows at least 60 days before calving and turnout on lush forage. Additional salt is not required. Feed close to water to monitor intakes. Projected intakes are 2 to 3 oz. per head per day. Always provide plenty of fresh, clean water for drinking. Keep feed fresh in cool, dry storage. DO NOT use feed that is old, molded or insect contaminated.

CAUTION: This feed contains added copper. Do not feed to sheep or related species.
