FEEDING DIRECTIONS

Feed to goats as a complete feed at the rate of 3.0% to 4.0% of their bodyweight for growth or milk production. If fed in combination with hay or forages, be sure that a sufficient amount of Hi-Pro's Natural Goat Ration is fed to provide the nutrients required for the level of growth, or milk production that is desired. The necessary amount of feed required will vary due to the quality of hay or forage and the environmental conditions occurring. Always provide plenty of clean fresh water for drinking. Keep feed fresh in cool, dry storage. DO NOT use feed that is old, molded or insect contaminated.

CAUTION: THIS FEED CONTAINS ADDED COPPER. DO NOT FEED TO SHEEP OR OTHER RELATED SPECIES.
