

HOGSTOP® Oral Contraceptive Formulation

Contraceptive bait for feral hogs. Reduces the fertility of male feral hogs within 5 days.

Maintains fertility interruption for at least 30 days after 5 feedings. Results may vary.

Does not kill hogs or nontarget animals. Does not render meat unsafe to consume.

For use to control feral hogs (*Sus scrofa*) on pastures, rangeland, forests, and non-crop areas.  
Suitable for use in areas adjacent to crop rows and growing areas.

**CAUTION:** May be harmful if swallowed. Dust may cause eye and respiratory irritation. Wear gloves when handling. **FIRST AID:** If swallowed, drink plenty of water. Do not induce vomiting. If in eyes, rinse thoroughly with clean water. If on hands or clothing, wash thoroughly. Call a physician if discomfort occurs.

**KEEP OUT OF REACH OF CHILDREN.**

**DIRECTIONS FOR USE:** This product should only be used to control the reproduction of feral hogs. This bait should only be applied in hog feeders equipped with heavy lids (minimum of 17 lbs. total lid weight) on bait compartments to limit access by non-target animals. Locate hog feeders in or near probable resting areas for hogs as indicated by sightings, soil rooting, hog wallows, and fresh hog tracks and scat. Secure feeders in place to prevent hogs tipping them over. Ensure that there are sufficient feeders to address the hog population. Ensure that sufficient bait is available in each feeder. If moldy or spoiled bait is apparent, remove immediately and replace with fresh bait. When feeder is emptied by hogs, clean feeder of old bait residue before refilling. Collect and dispose of spilled bait properly.

**Conditioning the hogs to feeders:**

**Bait application:** Add 50+ pounds of HOGSTOP® to each feeder and close lids. Monitor feeders every 2 to 4 days after loading to determine whether hogs are accessing the bait and replenish bait as necessary.

Store product in unopened bag in a cool, dry place inaccessible to children, pets, domestic animals, and other wildlife. Dispose of unused product properly.

**Active ingredients:** cottonseed oil (1.0%). **Inert ingredients (99.0%):** sodium chloride, corn, cottonseed meal, molasses.
