INGREDIENTS

Processed grain by-products, roughage products, plant protein products, calcium carbonate, molasses products, dried lignin sulfonate, salt, monocalcium phosphate, propionic acid, sulfuric acid, sorbic acid, benzoic acid, ammonium hydroxide, calcium propionate, calcium bentonite, vermiculite, Vitamin A supplement, zinc sulfate, Vitamin E supplement, sodium selenite, manganese sulfate and Vitamin D supplement.

FEEDING DIRECTIONS

This feed is designed to be fed to exotic wildlife in confinement and can be fed free choice or in measured amounts to provide protein, energy, minerals and vitamins necessary for growth and development, pregnancy, lactation and antler growth. Feeding amounts will depend on where the wildlife are in their production cycle, during late pregnancy, lactation and antler growth. Wildlife may eat from 0.75 to 2.00 lbs per head per day depending on forage availability and quality.
